

I am leaving one HSC organisation and moving to another one

Can my training record on the eLearning site be transferred to the new organisation?

Yes if the organisations you are moving from and to are hosted on www.hsclearning.com

What do I need to do to get my training record transferred to my new organisation?

DO NOT set up a new account.

If you send an email to one of the HSC Leadership Centre eLearning team requesting your training record is transferred with the following information we will transfer your record.

- who you are
- your old email address
- your new email address
- your old organisation
- your new organisation

A member of the eLearning team will email you when the record has been transferred you can then log in and continue to access courses.
